Parte ficção científica, parte thriller, Gigantes adormecidos é uma história viciante sobre a disputa pelo controle de um poder capaz de engolir todos nós.

Rose passeia de bicicleta pelo bosque perto de casa, quando de repente é engolida por uma cratera no chão. A cena intriga os bombeiros que chegam ao local para resgatá-la: uma menina de onze anos caída na palma de uma gigantesca mão de ferro.

Dezessete anos depois, Rose é ph.D em física e a nova responsável por estudar o artefato que encontrou ainda criança. O objeto permanece um mistério, assim como os painéis que cercavam a câmara onde foi deixado. A datação por carbono desafia todas as convenções da ciência e da antropologia, e qualquer teoria razoável é rapidamente descartada.

Quando outras partes do enorme corpo começam a surgir em diversos lugares do mundo, a dra. Rose Franklin reúne uma equipe para recuperá-las e montar o que parece ser um robô

alienígena gigante quase tão antigo quanto a raça humana.

Mas, uma vez montado o quebra-cabeças, ele se transformará em um instrumento para promover a paz ou causar destruição em massa?
